4.2 Introduction

The Independent Inquiry into Child Sexual Abuse (IICSA) states: “Institutions have an obligation to preserve records for the Inquiry for as long as necessary to assist the Inquiry. Prolonged retention of personal data by an organisation at the request of the Inquiry would not therefore contravene data protection legislation, provided **such information is restricted to that necessary to fulfil any potential legal duties that organisation may have in relation to the Inquiry.** An institution may have to account for its previous activities to the Inquiry so retention of the data will be regarded as necessary for this purpose.”

Therefore, any records that may be in scope of the inquiry because they pertain to matters relating to the care or abuse of children should be retained until further notice and the periods specified in this guidance, in relation to those records only, are suspended until further notice.

This record retention and deletion policy contains recommended retention periods for the different record series created and maintained by Alfreton Park School. The schedule refers to all information whether it is held in hard copy or electronic format including cloud and web based or on third party platforms.

Some of the retention periods are governed by statute. Others are guidelines, following best practice, employed by schools throughout the United Kingdom. Every effort has been made to ensure that these retention periods are compliant with the requirements of the UK General Data Protection Regulation 2018 (GDPR), the Data Protection Act 2018 (DPA), Article 8, the Human Rights Act 1998, the Freedom of Information Act 2000 (FOI) and the Code of Practice on Records Management (under Section 46 of the FOI).

Managing records series using these retention guidelines will be deemed to be ‘normal processing’ under the terms of the legislation noted above. If those record series are to be kept for longer or shorter periods than the time scales held in this document, the reasons for any deviation must be recorded.

4.3 Purpose

This policy, for managing records at Alfreton Park School has been drawn up in conformity with legislation, regulations affecting schools and best practice as promoted by the Information and Records Management Society of Great Britain.

This policy sets out guidelines for recording, managing, storing and the disposal of data, whether they are held on paper or electronically (including online), in order to assist staff, and the school, to comply with the General Data Protection Regulation (EU) 2016/679 (GDPR) including as adopted by the United Kingdom as a result of its exit from the European Union (“UK GDPR”), Data Protection Act 2018 and the Freedom of Information Act 2000. It should be read and used in conjunction with all of our related policies.

It is expected that;

- All information held by schools needs to be justifiable, by reference, to its purpose.
- Schools must be transparent and accountable as to what data they hold.
- Schools must understand and explain the reasons why they hold data.
- Schools must be able to respond to Subject Access Requests.
- Schools must be able to amend, delete or transfer data promptly upon any justified request.
- Schools must be able to audit how personal data was collected and when and why.
- Schools must hold sensitive data securely, accessed only by those with reason to view it and possess a policy as to why it is needed.

4.4 Disposal of Data

Article 5(e) of the GDPR states that personal data should be 'kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed; personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes... in order to safeguard the rights and freedoms of the data subject ('storage limitation')'.

Not all data needs to be destroyed. The school should determine whether records are to be selected for permanent preservation, or for destruction or to be transferred into a different format.

When information is no longer required, it should be disposed of. For confidential, sensitive or personal information, to be considered securely disposed of, it must be in a condition where it cannot either be read or reconstructed.

Skips, 'regular' waste disposal and ribbon shredders are not secure.

Paper records should be cross-shredded, incinerated, or pulped.

CDs/DVDs/discs should be cut into pieces. Hard copy images, AV recordings and hard disks should be dismantled and destroyed. Where third party disposal companies are employed, a certificate of destruction must be obtained. Staff working for external provider should have been trained in the handling and destruction of confidential data.

If the school receives a request for records that have not yet been destroyed, even if they should have been destroyed, that record must still be made available to the requestor.

The Freedom of Information Act 2000 requires the school to maintain a list of all records that have been destroyed and who authorised their destruction. This record should be retained for 15 years. The appropriate members of staff (Data Lead) should record:

- File reference and/or unique identifier
- File title or brief description of contents
- Number of files
- Name of the authorising officer

An example is contained in Annex A.

4.5 Transfer of Records to Archives

A school archive is different from official school records. A school archive preserves data where there is a legitimate interest in holding that information e.g. to commemorate a significant event in the life of the school. It can take on many characteristics and serve many purposes--but it neither compliments nor replaces the official record-keeping systems.

Where records have been identified as being worthy of permanent preservation, due to their historical or social value, they may be retained on site or transferred to the Local Authority Record Office (see local guidance [Find an archive | The National Archives](#)).

Where the school decides to maintain an onsite archive, the school should consult with their Data Protection Officer to implement the following steps:

- Establish what information needs to be archived

- Select someone to serve as the archivist. This may be an additional function within an established role, to work alongside both the Data Protection Officer and Data Lead officer (where applicable).
- Select a physical location to house the collection, and determine what equipment and supplies are needed to accomplish the project for the first year and on a continuing basis e.g. safe storage, shelving
- Remember that archives can include electronic data e.g. schools may have digital photographs which are no longer displayed on their website or social media pages. Consider not only holding and cataloguing this data in a secure driver, but making potential requestors aware of its presence, through a dedicated website.
- Come to an agreement with the Local Authority Record Office, in order for the collected materials could be turned over if the school archives should be discontinued.

4.6 Transfer of Records to other Media

Where lengthy retention periods have been allocated to records, schools should consider converting paper records to other media (e.g. digital or virtual, 'cloud' based). The lifespan of the media, and the ability to migrate data, should be documented in a Digital Continuity Policy. A scanning risk assessment is recommended to ensure the procedure is adequate.

4.7 Transfer of Records to other Settings & 'Last Known School'

When a child leaves the school, all pupil records should be transferred in a secure manner, to the child's new school. If the records contain sensitive information (e.g. Child Protection records), proof of receipt must be obtained and logged by the school's Data Lead. All data held by the school should then be deleted, including all paper records and data stored electronically. A record should be kept for tracking and auditing purposes only.

Responsibility for maintaining the pupil record passes to the 'last known school'.

The school is the final or last known school if:

- secondary phase and the pupil left at 16 years old or for post-16 or independent education, or;
- at any point the pupil left for elective home education, they are missing from education, or have left the UK, or have died.

The Pupil Record should be retained as a whole for 25 years from the date of birth of the pupil, after which time, if no longer required, it can be deleted or destroyed.

SEN and other support service records can be retained for a longer period of 31 years to enable defence in a "failure to provide a sufficient education" case.

If a school wishes to retain data for analysis or statistical purposes, it should be done in an anonymised fashion.

4.8 Responsibility and Monitoring

The Head Teacher and/or Data Lead, hold primary and day to day responsibility, for implementing this policy. The Data Protection Officer, in conjunction with the school, is responsible for monitoring its use and effectiveness and resolving any queries with regards the interpretation of the policy.

All permissions to access data are granted by the Head Teacher and recorded in the member of staff's personnel file.

All teaching and office staff are given training and guidance on accessing and managing school records, to ensure compliance with the time scales laid out under the retention schedule. All members of staff, with access to records, are expected to;

- Manage their current record keeping systems using the Retention Policy.
- Only dispose of records in accordance with the requirements outlined in this policy, if authorised to do so.
- Ensure that any proposed divergence from the records retention schedule and disposal policies is authorised and documented by the Head Teacher.

This policy does not form part of any employee's contract of employment and is not intended to have a contractual effect. However, it does reflect the school's current practice, the requirements of current legislation and best practice and guidance. It may be amended by the school but any changes will be notified to employees within one month of the date on which the change is intended to take effect. The school may also vary any parts of the procedure, including time limits, as appropriate.

4.9 Retention tables

Reference	File description	Format / How / Where this file is held	Responsible Role	Retention

						otherwise dictated eg KCSIE, H&SWA)	(subject to IICSA)
8. HR - Management of Disciplinary and Grievance Processes							
Information containing allegations of sexual abuse must be preserved – IICSA. Unless allegations are found to be malicious or false, other records pertaining to an accused person should be retained at least until the accused has reached normal pension age or for a period of 10 years from the date of the allegation if that is longer. (KCSIE 2021 para399)							
8.1	Allegation of a child protection nature, against a member of staff, including where the allegation is unfounded	Server RM Integris Email	Head	Until the person's normal retirement age or 10 years from the date of allegation, whichever is longer, then review. NB – allegations that are found to be malicious should be removed from personnel files, from the date they are proven to be unfounded.	Date of referral	KCSIE 2021	Secure disposal (subject to IICSA)
8.2	Disciplinary proceedings: Verbal warning	Server RM Integris	Head SBM	Date of warning + 6 months	Date of warning	KCSIE 2021	Secure disposal (subject to IICSA)
8.3	Disciplinary proceedings: Written warning (level 1)	Server RM Integris	Head SBM	Date of warning + 6 months	Date of warning	KCSIE 2021	Secure disposal (subject to IICSA)
8.3	Disciplinary proceedings: Written warning (level 2)	Server RM Integris	Head SBM	Date of warning + 12 months	Date of warning	KCSIE 2021	Secure disposal (subject to IICSA)

Reference	File description	Format / How / Where this file is held	Responsible Role	Retention			
				Period	Trigger	Basis	Action at end of use
8.4	Disciplinary proceedings: Final Warning	Server RM Integris	Head SBM	Date of warning + 18 months	Date of warning	KCSIE 2021	Secure disposal (subject to IICSA)
8.5	Warnings subsequently found to be based on an unfounded case (excluding child protection related warnings)	Server RM Integris	Head SBM	If the incident is child protection related then see above; otherwise dispose following the conclusion of the case	Date of resolution	KCSIE 2021	Secure disposal (subject to IICSA)

N.B. The ACAS code of practice on disciplinary and grievance procedures recommends that the employee should be told how long a disciplinary warning will remain current. However, this does not mean that the data itself should be destroyed at the end of the set period. Any disciplinary proceedings data will be a record of an important event in the course of the employer's relationship with the employee. Should the same employee be accused of similar misconduct at a later date, and then defend themselves by denying they would undertake such an action, reference to the earlier proceedings may show that they should not be given credence. Alternatively, if the employee were to be dismissed for some later offence and then claim at tribunal that they had e.g. "fifteen years of unblemished service", the record of the disciplinary proceedings would be effective evidence to counter this claim. Employers should, therefore, be careful not to confuse the expiry of a warning for disciplinary purposes with a requirement to destroy all reference to its existence in the personnel file. One danger is that the disciplinary procedure itself often gives the impression that, at the end of the effective period for the warning, the warning will be "removed from the file". This or similar wording should be changed to make it clear that, while the warning will not remain active in relation to future disciplinary matters, a record of what has occurred will be kept.
