7. School immunisation programme

We will need to provide data to support immunisation programmes in our school. This includes:

- sharing information leaflets and consent forms with parents or carers
- providing a list of eligible children and young people, and their parent's or carer's contact details to the School Age Immunisation Service (SAIS) team

Sharing these contact details does not mean that a vaccine will be given. A parent or carer will need to give their consent for a vaccine to be given to their child.

There is a lawful basis for school to share information with school immunisation teams under article 6(1)(e) of UK GDPR. This states that the information can be shared if "processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller".

This means that we can share this information with immunisation programmes as it is in the public interest.

Sharing information with immunisation programmes is part of the exercise of a school's official authority. Schools also have a duty to support wider public health.

Data protection laws do not prevent us from sharing personal data where it is appropriate to do so in a fair and lawful way, and in this instance, it is beneficial to do so.

8. International Transfers

Your personal information may be transferred outside the UK and the European Economic Area ('EEA'), including to the United States. Where information is transferred outside the UK

or EEA to a country that is not designated as “adequate” in relation to data protection law, the information is adequately protected by the use of International Data Transfer Agreements and security measures, and other appropriate safeguards. For more information on international transfers please contact us at the details below.

9. Freedom of Information Act and Environmental Information Regulations 2004

As a public body, our school is subject to requests made under the above legislation. However, we will never disclose personal data in our responses to these requests where to do so would contravene the principles of data protection.

10. Why we regularly share pupil information

We do not share information about our pupils with anyone without consent unless the law and our policies allow us to do so.

10.1 Youth support services & Careers advisors

Pupils aged 13+

Once our pupils reach the age of 13, we pass information about the pupil to our local authority so they can carry out their legal responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- youth support services
- careers advisers

A parent or guardian can object to any information in addition to their child's name, address and date of birth being passed to their local authority or provider of youth support services by informing us. This right is transferred to the child / pupil once they reach the age 16

Data is securely transferred to the youth support service under the terms of a Data Sharing Agreement with Derbyshire County Council

<https://schoolsnet.derbyshire.gov.uk/administration-services-and-support/information-governance/information-sharing.aspx>.

For more information about services for young people, please visit our local authority website or contact our Schools' Data Protection Officer.

Pupils aged 16+

We will also share certain information about pupils aged 16+ with our local authority as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- post-16 education and training providers
- youth support services
- careers advisers

A child / pupil once they reach the age of 16 can object to information other than their name, address and date of birth being passed to their local authority by contacting us.

For more information about services for young people, please visit our local authority website.

10.2 Department for Education

The Department for Education (DfE) collects personal data from educational settings and local authorities via various statutory data collections. We are required to share information about our pupils with the Department for Education (DfE) either directly or via our local authority for the purpose of those data collections, under: section 3 of The Education (Information About Individual Pupils) (England) Regulations 2013.

All data is transferred securely and held by DfE under a combination of software and hardware controls, which meet the current government security policy framework.

For more information, please see 'How Government uses your data' section.

10.3 Local Authorities

We may be required to share information about our pupils with the local authority to ensure that they can conduct their statutory duties under

- the Schools Admission Code, including conducting Fair Access Panels.
- safeguarding of children/young people
- supporting children and young people who are eligible for SEND related provision
- promoting the education, employment and training of young people which requires the exchange of data and the use of information not otherwise available to either organisation.
- census, Early Years Foundation Stage, Phonics, and other key stage pupil attainment data.
- to identify where pupils have transferred to make the task of tracking vulnerable pupils more secure and also to ensure appropriate services are extended to pupils needing additional support e.g., for reasons of health, exclusions, attendance or transport.

10.4 Requesting access to your personal data, and other rights

Under data protection law, pupils have the right to request access to information about them that we hold, and in some cases, parents can make the request on the pupil's behalf, although this will be subject to the pupil's consent if they are deemed to be competent to understand the request and any implications.

Parents also have the right to access their child's educational record.

Family members/carers also have the right to request access to information about them that we hold.

You also have the right to:

- be informed about the collection and use of your personal data.
- have inaccurate personal data changed, or completed if it is incomplete.
- erasure, often known as the 'right to be forgotten'; however this does not apply where, amongst other things, processing is necessary to comply with a legal obligation.
- restrict the way we are using your information, although, as above this is a limited right.
- object to the way we are using your information; though other than for marketing purposes, this is also limited as above.
- Where we rely on your consent to collect and use your data, you have the right to withdraw that consent. If you do change your mind, or you are unhappy with our use of your personal data, please let us know – our contacts are in section 2.14 at the end of this document.
- You also have rights in relation to automated decision making and profiling, though these are not currently relevant as we don't carry out automated decision making or profiling.
- Finally, the right to complain about the way we use your personal information to the ICO, or to seek compensation through the courts.

If you would like to request access to your data, or use any of the other rights listed above, please contact the school office in the first instance.

11 How Government uses your information

The pupil data that we lawfully share with the DfE through data collections:

- underpins school funding, which is calculated based on the numbers of children and their characteristics in each school.
- informs 'short term' education policy monitoring and school accountability and intervention (for example, school GCSE results or Pupil Progress measures).
- supports 'longer term' research and monitoring of educational policy (for example how certain subject choices go on to affect education or earnings beyond school)
